EDUCATION

Bachelor of Science In Computer Engineering

STI COLLEGE SURIGAO
2014-2019

Zuitt Web Developer Program (MERN Stack)

Main Course Package
April 3 to May 30 , 2023

TECHNOLOGIES

- Front-End
- Back-End
- Back-End API
- Full-Stack
- Responsive Web App

- Mongo DB
- Express.js
- React.js
- Node.js
- Vercel
- MySQL
- Tailwind

- Git
- HTML 5
- CSS 3
- Bootstrap
- Javascript
- Postman

WORK EXPERIENCE

Full Stack Developer

Sharks E-Billiards (Lucky Taya Gaming Corporation)   July 5, 2023 to Present

Front-end Development:
- Develop user-friendly and responsive web interfaces using React.js and Bootstrap.
- Collaborate with designers to implement UI/UX designs, ensuring a visually appealing and intuitive user experience.
- Optimize application components for maximum performance across various devices and browsers.

Back-end Development:
- Design and implement server-side logic using appropriate technologies and frameworks.
- Develop and maintain databases using MySQL, including schema design and optimization.
- Implement RESTful APIs and integrate them with the front-end to enable smooth data exchange.
- Ensure data security and implement user authentication and authorization systems.

Prior Authorization Coordinator

Optum Global Solutions   January 21,2022- March 27, 2023

- Coordinated and processed prior authorization requests for a patient population of more than 100.
- Responded to customer inquiries and resolved escalated complaints in a timely manner.
- Reviewed and validated insurance coverage for patients. Maintained accurate and up-to-date records of prior authorization requests.
- Collaborated with healthcare providers to obtain missing information and resolve discrepancies.
- Tracked and monitored the status of prior authorization requests.
- Maintained up-to-date knowledge of insurance policies, procedures, and regulations.
- Developed and implemented processes and procedures for the prior authorization department.

PROJECT EXPERIENCE

Zuitt Web Developer Program

Zuitt Coding Bootcamp   April 3 to May 30,2023

- **Front-end Capstone**: Designed and developed a static responsive website using HTML5, CSS3, Bootstrap, and Git for version control, hosted on GitHub

- **Back-end Capstone**: Created a suite of Python projects including a coffee machine, quiz game, blackjack game, and higher-lower game, using PyCharm IDE and OOP principles

- **Full-Stack Capstone**: Developed a React-based web application with API integration and responsive design, utilizing modern JavaScript techniques and DOM manipulation

----

SKILLS

Front End Web Development: HTML5, CSS3, Bootstrap, JavaScript, Git Basics

Back End Development: Node.js, Express.js, MongoDB, MySQL

Full Stack Development: React.js, DOM Manipulation, Component-Driven Development, API Integration with Fetch
